

Web Developement Fundamentals

Problem:

CHARUSAT wants to develop a webpage through which students can view

upcoming events, register for an event, and obtain answers to common event-related queries. As a web developer, design and develop a single webpage using

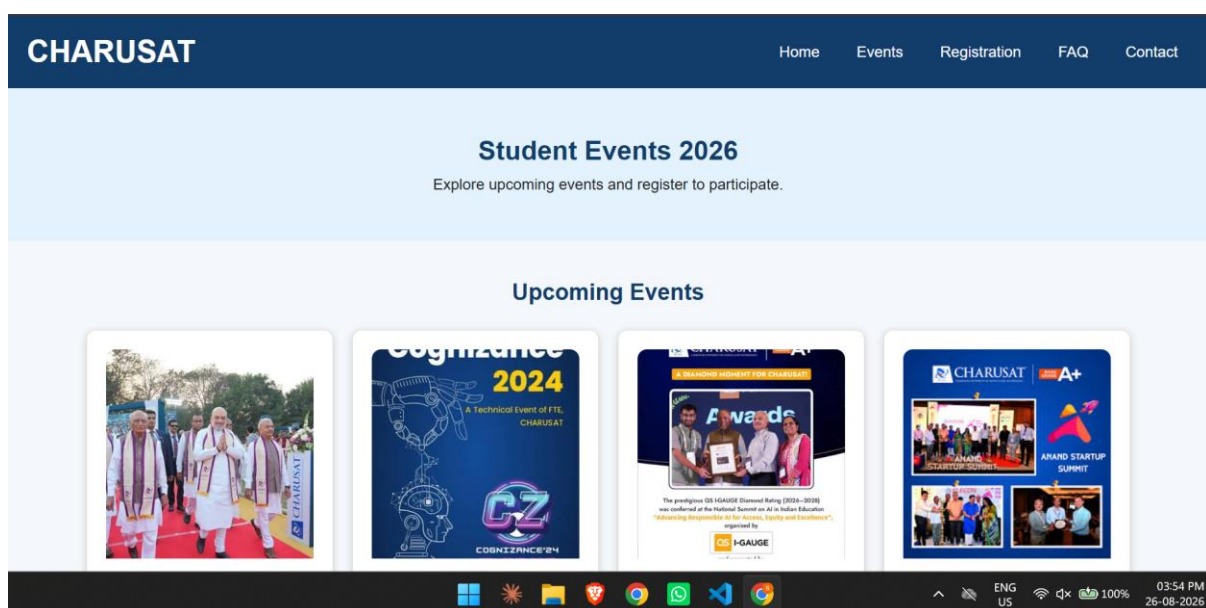

HTML5 and CSS3.

Solution:

Github link:

<https://github.com/RudraKapuriya/Wdf-exam>

Output:

Learn about the latest trends in technology and innovation.
